

Craig Anderson

Australian in London.

By day, he's a contract Python web developer specialising in Django based in London. Check out his [CV \(curriculum vitae\) \(/cv\)](#) or download a PDF version ([/cv.pdf](#)). If you'd like to hire him, send him an email (<mailto:craiga@craiga.id.au>).

By night, he's probably seeing live music or hunting out an obscure craft beer. When in Australia, he might occasionally play bass guitar in Look Who's Toxic (<http://lookwhostoxic.com>).

He also runs a little Unix Timestamp conversion site (<https://www.unixtimesta.mp>).

There are plenty of other things he should be doing, but most of the time he's dreaming of what he'll do when he grows up while watching bad Star Trek spin-offs.
